PROJECTS

CRYPTOCURRENCY PLATFORM (03/2023 - 04/2023)

- Aims to provide users with comprehensive data on various cryptocurrencies and exchange platforms based on React and chakraUI

SPOTIFY CLONE (05/2023 - 06/2023)

- Spotify clone using styled components and integrated it with the Spotify API.
- Interactive application that allows users to browse and play their favorite songs and discover new music, just like in the original Spotify platform.

TENZIES GAME (01/2023 - 02/2022)

- It is a captivating web-based game built using React. Inspired by the classic dice game called Tenzi, this interactive experience offers players the thrill of rolling multiple virtual dice simultaneously.

CENTRAL RESERVATION SYSTEM (11/2021 - 01/2022)

- Functional clone of Airbnb like online marketplace website, Reservation system for the Hotels relying on React
